# r. w. stokes & sons ltd

- a brief history -

established in 1902, stokes tea and coffee is a fourth generation, family run business specialising in freshly roasted coffees and fine teas.

our founder, robert william stokes started out as a grocer before discovering his passion for blending tea and roasting coffee. after scooping up many an award for his knowledge and skills, he took on his first cafe. in 1937, the opportunity arose to move into a 16th century half-timbered building on the medieval high bridge, spanning the river witham - our wonderful stokes high bridge café, which we are lucky enough to continue to occupy today.

the sourcing, blending, roasting and packaging of our teas and coffees are all done under one roof in the heart of lincoln and our wholesale department supplies many other businesses with coffee making equipment, barista training, servicing and engineering.

we also run three of the city's busiest cafés and restaurants - stokes high bridge café, stokes collection café and stokes lawn café.

whilst we still aim to source the best coffee and teas from around the world, the food we serve on our menus are sourced a little closer to home. we offer homemade fare, expertly prepared from the freshest and best locally sourced ingredients.

please note that stokes' will make every effort to comply with the dietary requirements of our guests and wherever possible will exclude requested food items, ingredients and allergens from the dishes that we serve. However, as stokes' prepares all its food in centralised kitchens, allergen based meals are prepared in the same area as allergen free meals. we cannot therefore guarantee absolute separation, and cannot take responsibility for any adverse reaction that may occur.
